

**Summary of ICCR Source Work Group Meeting
Teleconference - January 21, 1998
Stationary Combustion Turbine Work Group**

The teleconference was organized by the US Environmental Protection Agency (EPA). A complete list of attendees, with their affiliations, is included as Attachment I. The agenda for the meeting is included as Attachment II.

Decisions

- Consensus was reached on not moving ahead with an informational presentation to the Coordinating Committee on MACT floor at the February meeting.

Next Meeting

- The next Combustion Turbine Work Group Meeting will be a face-to-face meeting in Winston Salem, NC, on February 26, 1998.
- Items to be discussed during the next meeting may include:
 - Review/discussion of Model Plant Task Group's development of model turbines
 - MACT floor development status
 - Test plan status
 - Report on progress of the CC Pollution Prevention Subgroup
 - EPA response to the landfill gas/dioxin issue

Action Items

- Sims Roy will contact Sam Gieryn to find out why he has not attended recent meetings.
- Diane McConkey will summarize her findings on the possibility of facilities who volunteer for testing being excluded from compliance/enforcement in a memo to Sims Roy.
- The revised test plan and the comments received from EPA's Emission Measurement Center will be sent to WG members by 1/29/98.
- Sims Roy and Marvin Schorr will revise the MACT Development Timeline and the Milestone Tracking Summary as necessary for the February CTWG Status Report to the CC.
- Sims Roy will contact the Process Heater Work Group to check on their progress on MACT floor development and to determine the feasibility of scheduling a CTWG-PHWG meeting at the February meeting.
- Gordon Brown will fax the revised table of model plants to WG members prior to the February meeting.
